## BRONZE KEEPSAKE TREES

*These small trees are cast entirely in bronze with .020" brass leaves mounted directly to the bronze tree top. Ideal for families and small businesses.*

These small trees are cast entirely in bronze with .020" brass leaves mounted directly to the bronze tree top. They may be used for family heritage trees or to recognize sales or service awards in smaller companies or organizations.

### DESIGNS

#### Small Tree

Size: 11" Wide x 9" High  
Capacity: 4 - 7

#### Medium Tree

Size: 15" Wide x 12" High  
Capacity: 8 - 12 leaves.

#### Large Tree

Size: 19" Wide x 16" High  
Capacity: 12, 14, 16 or 19 leaves.

### Leaves

The keepsake tree uses a small version of our Donor Recognition leaf die cut from the same .020" leaded brass. The overall size of this leaf is 2-3/4" x 1-3/8".

### Helpful Hints

A larger version of the "leaf" may be incorporated into any keepsake tree using a halftone etching of a family or individual photograph.

### ENGRAVING

The Plaxx Companies is equipped with state of the art computerized rotary and laser engraving systems and can provide engraving services for the leaves on these trees. The engraving format for your leaves is saved in our computer systems assuring you that future leaves will have the same look as those of your initial order. Our leaves are both engraved AND ANODIZED. Anodizing yields the rich dark color text that is associated with quality engraving.
